

	How have students identified Countries and Capitals? Do students know any other cities from Spanish speaking countries?	What do you see or hear about the culture of the country through tourism and how is the culture different from or similar to your own culture?	Would you like to go to this place and would you pay the money to go? Is this presentation letting you know how much it costs and is the cost believeable?	Students will need to show their understanding of Spanish speaking countries and tourism through creating a marketing text.	Students will need to show their understanding of Spanish speaking countries and tourism through creating a marketing text.			Write and ask questions about what was different than your vision was before the presentation?	In your opinion, how well do you think the group did?
